DISTILLERY IN AMSTERDAM

Since we moved to our distillery in Amsterdam in 2019, we have opened our doors to visitors. With our transparent and open-minded approach, we are one of the few distilleries in the world that is open to the public.

When we are not producing or distilling, you can participate in one of our many experiences, such as distilling workshops, cocktail workshops, and customized events.

We have made it our mission to unite single-origin rum and carefully selected botanicals. With this, we have introduced a new category within the rum industry called Botanical Rum. By using fresh and flavorful ingredients, we create unique and innovative flavors. We invite you to come and taste it for yourself.

PREFERABLY NO ALCOHOL?

No problem! For those who prefer not to drink alcohol, we also offer the option to participate in the workshops. The non-alcoholic workshops can be booked for both individuals and the entire group.

NON-ALCOHOLIC COCKTAIL WORKSHOP

Just like in the regular cocktail workshop, you will be making (and drinking) three different cocktails. We simply replace the rum with non-alcoholic beverages. The end result? The same delicious cocktails, but virgin!

NON-ALCOHOLIC DISTILLING WORKSHOP

When you choose to distill a 0% 'botanical rum,' you will follow the same process as in the regular distillery workshop. However, the rum is replaced with a 0% 'rum.' The end result is a non-alcoholic botanical rum, flavored with ingredients such as rhubarb, blood orange, and roses.

"We did a cocktail workshop with a group of friends here and the experience was absolutely great. The instructor was experienced and could clearly explain the process of making a cocktail including smaller tips & tricks to get even better at it if you know the basics. Also, his interaction with the group was open, friendly and above all fun. And of course the rums and cocktails were delicious!"
